NAMING AMERICA Modern science and research are repealing so much of what the older generation was taught in school that we may well conclude with John Billings that "it is just as well not to know so much as to know so much that ain't so." The old text books told us, for example, that America was named for Amergio (or Americus) Vespucci, an Italian explorer who closely followed Columbus and stole Christopher's thunder. Now comes an ancient document unearthed in Prague, which is said to be a report of his adventures by Vespucci himself, in which the mavigator signed his first name as Alberico. Thus, if he were to have been honored in naming the new continent, it should have been called the Alberica. But a further complication has arisen through the assertion of another authority that an Indian cride of Columbus's time called themselves by a name which sounded very much like "America," and lake the perhaps the New World got a legitimate name after all. Anyway, at this late day it prob-	mitted suicide because she had been driven to desperation by ridical of her family name, which had a suggestive meaning to eviluinded persons. Children will seize upon such opportunities to harass their associates, sometimes in a spirit of fun, but often with vicious intent. While most parents would disapprove of such conduct, many do not take the rouble to explain to their children low cruel it is, or appeal to their objecter natures to induce them to effain from it. Unnecessary infliction of mental suffering is as bad or worse than the infliction of physical pain, and children should be earnestly admonished to avoid both forms of bruelty. LIVESTOCK REMINDERS Sows should be bred to purebred doars in May for September litters. ———————————————————————————————————

THE

Price Determination Schedule

ISSUED BY THE

National Graphic Arts Co-ordinating Committee of Graphic Arts Code

Became Effective May 4, 1934

Every Printing Office in the United States Comes Under This Price Schedule.

The price you pay in Elba is the same you'd pay in Maine, Michigan, California, Texas or anywhere in the U.S.A.

The mission and objective of NRA is stabilization of industry. When one reflects upon the fact that the Printing Industry is the fifth largest in America in sales volume, 4th in number of people employed---but ranks 83d in credit standing --- there appears need for rigid stabilization.

The penalty for violating the Graphic Art Code is a fine and imprisonment.

The Elba Clipper's Conformity will be 100 per cent

and we pledge ourselves to instantly report all violations to Alabama's Regional Code Authority, who will make investigations leading to prosecution.
